General:
1 = Excellent
2 = Very Good to Excellent
3 = Very Good
4 = Very Good to Good
5 = Good
6 = Fair to Good
7 = Fair
8 = Fair to Poor
9 = Poor

Market Class:
SWW = Soft White Winter
HRW = Hard Red Winter
HRS = Hard Red Spring
SWS = Soft White Spring
HRS = Hard White Spring

Rainfall Region:
Irrigated = Irrigated
High = > 20" Moisture
Intermediate = 16"-20"
Low = < 15" Moisture

Protein:
1 = Highest
9 = Lowest

Note: these agronomic assessments are made by Syngenta scientists and reflect each variety's relative performance within these characteristics though the 2019 crop year. Specific conditions may cause variations within characteristics. These relative protection values are based on current pest and disease populations and have been known to shift periodically and may cause changes in specific evaluations. Resistance to many other diseases and pests is sensitive to environmental conditions, plant development stages and the presence and intensity of other diseases which may result in specific evaluation inconsistencies. This chart is updated annually to reflect the most current trends.

New AgriPro Brand Winter Wheat Varieties

With AgriPro® brand wheat varieties continuing to push for genetic diversity, it's no wonder AgriPro makes up the largest portfolio in the wheat industry and consistently ranks in the top yield groups in every region. It's time to plant top-performing wheat varieties in your field.

NEW AP Iliad

Soft White Winter Wheat
Reach Epic Yields

- Adapted for intermediate to high-moisture rainfall with straw strength to irrigate
- Medium heading date with an early finish
- Good tolerance to stripe rust and soil-borne mosaic virus resistant

NEW AP Dynamic

Soft White Winter Wheat
Never Settle for Ordinary

- Broadly adapted for low to intermediate rainfall zones
- Quick emergence and good winter hardiness
- Strong disease package

Seed Guide

syngenta®

syngenta®

®

Varieties that lead the industry. And lead you to better yields.

Winter Wheat

SY Ovation

Setting the Standard — 2019 National Wheat Yield Contest Bin Buster

SY Dayton

Bred for Performance Plus

- Broadly adapted with medium maturity
- Medium height, suitable for irrigation
- Good tolerance to stripe rust and soil-borne mosaic virus resistant

SY Assure

Strengthen Your Returns

- Adapted across moisture zones
- Early maturity, allowing for a flexible planting date
- Excellent tolerance to current strains of stripe rust

SY Raptor

Powerful Performance Potential

- Adapted for irrigation with good straw strength
- Good tolerance to stripe rust and great threshability

SY Command

Dryland Reliability

- Great dryland performance from Connell to Harrington
- Good coleoptile length and strong emergence for direct seeding and deep furrow
- Excellent stripe rust tolerance

SY Banks

Next Generation Adaptation

- Excellent stripe rust and cephalosporium stripe tolerance
- PCH1 Straw breaker foot rot resistance with snow mold tolerance

SY Touchstone

Solid Agronomic Hard Red Winter

- Early maturity with short height
- SBMV resistant

Protect your seed investment and enhance earning potential with Syngenta Seedcare products. For more information, contact your local ag products retailer, Syngenta representative Ric Wesselman (509-990-1964), or visit SyngentaSeedCare.com

Spring Wheat

AP Renegade

Hard Red Spring Wheat

Breakthrough Performance

- Exceptional yield across moisture zones with medium height and maturity
- High test weight with good protein
- Hessian fly resistant with good stripe rust and Fusarium head blight tolerance
- Quick emergence and spring growth

AP Venom

Hard Red Spring Wheat

Double Strike. Yield + Protein

- Versatile—for fall or spring seeding
- High yield with very good protein
- Good tolerance to stripe rust and Septoria

AP Coachman

Soft White Spring Wheat

Covers All of the Bases

- Good yield potential in dryland production
- Very good tolerance to current strains of stripe rust
- Hessian fly resistant

For more information, call your local AgriPro Associate or visit AgriPro.com

SY Gunsight

Hard Red Spring Wheat

Fully-Loaded Performer

- High yield and protein potential in intermediate to high moisture regions
- Short height with high tillering ability
- Industry-leading tolerance to fusarium head blight

AP Octane

Hard Red Spring Wheat

New Energy for your Operation

- High yield with acceptable protein in fall-planted seeding
- Medium maturity and height
- Quick emergence with large flag leaf and aggressive tillering

AgriPro brand varieties from Syngenta deliver agronomic traits you need for superior performance.

North America's largest wheat breeding program develops AgriPro® brand varieties that resist disease while maximizing grain yield and quality. Innovation in the lab combined with thousands of research trials provide farmers a superior seed resource backed by the strength of Syngenta.

Available as certified seed grown and distributed by local AgriPro associates. For more information, call your local AgriPro retailer or visit AgriPro.com
