### New AgriPro Brand Winter Wheat Varieties

#### AP Iliaad

- **Soft White Winter Wheat**
  - Reach Epic Yields
  - Adapted for intermediate to high-moisture rainfall with straw strength to irrigate
  - Medium heading date with an early finish
  - Good tolerance to stripe rust and soil-borne mosaic virus resistant

#### AP Dynamic

- **Soft White Winter Wheat**
  - Never Settle for Ordinary
  - Broadly adapted for low to intermediate rainfall zones
  - Quick emergence and good winter hardiness
  - Strong disease package

---

**General**

1. Excellent  
2. Very Good to Excellent  
3. Good  
4. Very Good to Good  
5. Fair to Good  
6. Fair  
7. Fair to Poor  
8. Poor

**Note:** These agronomic assessments are made by Syngenta scientists and reflect each variety’s relative performance within these characteristics through the 2019 crop year. Specific conditions may cause variations within characteristics. These relative protection values are based on current and past disease populations and have been known to shift periodically and may cause changes in specific evaluations. Resistance to many other diseases and pests is sensitive to environmental conditions, plant development stages and the presence and intensity of other diseases which may result in specific evaluation inconsistencies. This chart is updated annually to reflect the most current trends.
### Winter Wheat

**SY Command**  
**Dryland Reliability**  
- Great dryland performance from Connell to Harrington  
- Good coleoptile length and strong emergence for direct seeding and deep furrow  
- Excellent stripe rust tolerance

**SY Banks**  
**Next Generation Adaptation**  
- Excellent stripe rust and cepheid stripe tolerance  
- PCH1 Straw breaker root rot resistance with snow mold tolerance

**SY Touchstone**  
**Solid Agronomic Hard Red Winter**  
- Early maturity with short height  
- SBMV resistant

**SY Assure**  
**Strengthen Your Returns**  
- Adapted across moisture zones  
- Early maturity, allowing for a flexible planting date  
- Excellent tolerance to current strains of stripe rust

**SY Dayton**  
**Bred for Performance Plus**  
- Broadly adapted with medium maturity  
- Medium height, suitable for irrigation  
- Good tolerance to stripe rust and soil-borne mosaic virus resistant

**SY Raptor**  
**Powerful Performance Potential**  
- Adapted for irrigation with good straw strength  
- Good tolerance to stripe rust and great threshability

### Spring Wheat

**SY Ovation**  
**Setting the Standard — 2019 National Wheat Yield Contest Bin Buster**

**AP Renegade**  
**Hard Red Spring Wheat**  
**Breakthrough Performance**  
- Exceptional yield across moisture zones with medium height and maturity  
- High test weight with good protein  
- Hessian fly resistant with good stripe rust and Fusarium head blight tolerance  
- Quick emergence and spring growth

**AP Venom**  
**Hard Red Spring Wheat**  
**Double Strike. Yield + Protein**  
- Versatile—for fall or spring seeding  
- High yield with very good protein  
- Good tolerance to stripe rust and Septoria

**AP Coachman**  
**Soft White Spring Wheat**  
**Covers All of the Bases**  
- Good yield potential in dryland production  
- Very good tolerance to current strains of stripe rust  
- Hessian fly resistant

**AP Octane**  
**Hard Red Spring Wheat**  
**New Energy for your Operation**  
- High yield with acceptable protein in fall-planted seeding  
- Medium maturity and height  
- Quick emergence with large flag leaf and aggressive tillering

**SY Assure**  
**STRENGTHEN YOUR RETURNS**  
- Early maturity with short height  
- SBMV resistant

**SY Octane**  
**Hard Red Spring Wheat**  
**New Energy for your Operation**  
- High yield with acceptable protein in fall-planted seeding  
- Medium maturity and height  
- Quick emergence with large flag leaf and aggressive tillering

### AgriPro brand varieties from Syngenta deliver agronomic traits you need for superior performance.

North America’s largest wheat breeding program develops AgriPro® brand varieties that resist disease while maximizing grain yield and quality. Innovation in the lab combined with thousands of research trials provide farmers a superior seed resource backed by the strength of Syngenta.

Available as certified seed grown and distributed by local AgriPro associates. For more information, call your local AgriPro retailer or visit AgriPro.com
