CV (Effective)	9.0		9.7		11.0		10.8	10.0

Boldfaced numbers are within confidence interval at specific locations and combined years of yield data.

NS = Non Significant

Locations

2024 — Conway Springs and Pratt, KS; Carrier, OK

2025 — Pratt, KS

2026 — Pratt and South Haven, KS

2026 Notes

Pratt, KS — Very good yields, especially for the year, due to timely rains.

South Haven, KS — New location for 2026. Lower yields but overall clean data. Planted directly into barely ready to harvest soybean stubble.

Locations not included: Carrier, OK (hail damage), Nickerson, KS (freeze damage)
