LSD General (5%) EE	ns		14.2		26.3		23.8	ns
CV (Effective)	6.9		7.4		6.8		6.6	6.9

Boldfaced numbers are in the top yield group at specific locations and combined years of yield data.

Locations

2024 — Blackfoot and Twin Falls, ID

2025 — Blackfoot, Nampa, Rupert, and Twin Falls, ID

2026 — Blackfoot and Twin Falls, ID

Notes

Idaho Falls, ID—Overall, extremely well managed and good yields. Site was impacted by spring freeze damage, especially the earliest lines.

Twin Falls, ID—Extremely good yields under heavy management. Growth regulator was applied so lodging was not a concern.
