General
1-2 = Excellent
3-4 = Very Good
5 = Good
6-7 = Fair
8-9 = Poor

Protein Content:
1 = Highest
9 = Lowest

Maturity:
1 = Earliest
9 = Latest

Height:
1 = Shortest
9 = Tallest

Call your local AgriPro® Associate for more information and seed availability.

*AgriPro Hybrid Wheat and the AP Iconic variety require a Seed Stewardship Agreement specifying No Saved Seed (Certified Seed Only).

Note: these agronomic assessments are made by Syngenta scientists and reflect each variety's relative performance within these characteristics though the 2026 crop year. Specific conditions may cause variations within characteristics. These relative protection values are based on current pest and disease populations and have been known to shift periodically and may cause changes in specific evaluations. Resistance to many other diseases and pests is sensitive to environmental conditions, plant development stages and the presence and intensity of other diseases which may result in specific evaluation inconsistencies. This chart is updated annually to reflect the most current trends.
